

STROKE?

Think FAST & save a life
CALL 999

Face – Can they smile?
Does one side droop?

Arm – Can they lift both
arms? Is one weak?

Speech – Is their speech
slurred or muddled?

Time – To call 999.

If you see these signs call 999 FAST.
Chest, Heart & Stroke Scotland

Think FAST & save a life CALL 999

A stroke is a medical emergency.
It can happen to anyone at any time.

To check if someone is having a
stroke use the F-A-S-T test.

By calling 999 early treatment can
be given which can prevent further
damage to the brain.
